Need

Problem

Often our social circle is not big enough or not flexible enough to organize big or spontaneous sport events.

Problem

Other social networks like facebook or whatsapp often do not have functions tailored to this specific problem, but only offer large public groups or similar.

UNIVERSITÄT
DRESDEN

DRESDEN
concept

MeetForSport

A social network that is specialized for precisely these problems. It enables you to create and join individual sport events and connect with new people who are interested in the same sports as you.
